

Pharmaceutical Recalls

In the event that a hospital pharmacy makes the MCA aware of a drug recall that may have system wide implications, the MCA will initiate the following actions:

- Communicate with all hospitals that maintain a Southeast Michigan Regional Drug Box to determine whether the recall is from a manufacturer whose drug(s) are utilized in the Southeast Michigan Regional Drug Box
 - If **ALL** hospital have not stocked this item in the drug box – no further action is required.
 - If any hospitals respond affirmatively, the MCA will send communication to their EMS Agencies requesting that they contact their response base hospital to arrange a mutually agreed upon time to have the drug boxes inspected.
