

**Southeast Regional Protocol**  
**MEDICATION SECTION**  
**MEDICATION SUBSTITUTION**

Initial Date: 10/25/2017  
Revised Date: 01/22/2024

Section 9-2

## **9.2 Medication Substitution**

### **Purpose:**

This protocol allows for MCA to substitute medications during a time of shortage without having to enact emergency protocols within the MCA. This protocol does not replace or override any portion of the **Medication Shortage Procedure**. All procedures within that procedure must still be followed in regards to substitutions in concentration or medication.

### **Indications:**

None of the medication options indicated in the MCA approved protocol are available.

### **Procedure:**

1. Follow **Medication Shortage Procedure**.
2. Alternate concentrations are listed within this protocol for reference; these do not require a protocol change and are outlined in the **Medication Shortage Procedure**.
3. Notification and education of providers within the MCA should be done as soon as the substitution is known.
  - a. It is the responsibility of the MCA to distribute information on the shortages and substitutions to agencies for distribution to providers.
  - b. If a substitution is imminent, it is acceptable for an MCA to distribute information prior to the medication being substituted.
4. The MCA should notify the Division of EMS and Trauma if a substitution is suspected to last more than 60 days so that a more permanent protocol solution can be enacted.
5. All uses of substitute medications will be reviewed by PSRO for appropriateness.

<b>Current Medication</b>	<b>Substitution</b>
Amiodarone	Lidocaine
Calcium Chloride	Calcium Gluconate
Diazepam	Midazolam
Diphenhydramine	Famotidine Ranitidine Hydroxyzine
Fentanyl	Hydromorphone
Lidocaine	Amiodarone
Midazolam	Diazepam
Morphine	Hydromorphone
Ondansetron	Metoclopramide Compazine
